

SHOOTING OF MARCHERS IS RADICAL PLOT

(Continued from Page 1).

Chahals and other neighboring towns, are to be used in the work.

Rope Around Neck; Rescued by Police

BY UNITED PRESS. LEAD WIRE TO TRIBUNE. CENTRALIA, Wash., Nov. 12.—Britt Smith, the I. W. W. secretary, who was hanged last night, narrowly escaped a similar fate yesterday afternoon soon after the shooting occurred.

A crowd immediately stormed the I. W. W. hall, from which Smith ran through the rear entrance. He worked an automatic rifle as he ran to the Skookumchuk river.

Smith evidently saw that he could not swim the stream, as he had first planned and dashed back up to the bank. He was met by Hubbard, into whose body he fired four shots before being overpowered by others who had pursued him.

The I. W. W. secretary was seized by a crowd just as his captors reached the jail with him. A rope was tied around his neck, and he was about to be hanged when the police, with a flank movement, gained possession of the prisoner and rushed him into the jail.

"SKIN THE CAT"

But if you won't exercise vigorously you must take "Cascarets."

There is nothing like bending exercises, taking long walks, or chopping wood to keep the liver and bowels active. People take their exercise in an easy chair. Such folks need Cascarets, else they suffer from sick headaches, sour, acid stomach, indigestion, colds, and are miserable. But don't say bilious or constipated. Feel splendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Oil, or castor oil, or harsh pills. They cost so little too—Cascarets work while you sleep.—Advertisement.

Police A. C. Hughes told the United Press that four of the nineteen alleged I. W. W. prisoners in jail have been positively identified as among those who were in the I. W. W. headquarters at the time of yesterday's shooting.

The men are Mike Shehal, 60; James McNamee, 34; Roy Bicker, 24; and L. C. Morgan, 18. Chief Hughes declined to give further identifications had been made by Patrolman Jackson and members of the soldiers' posse.

Reports from the bedside of Earl Withers, one of the injured ex-service men, are encouraging and it is believed he will recover.

Young Boy Tells Of Radicals' Plot

BY UNITED PRESS. LEAD WIRE TO TRIBUNE. CENTRALIA, Nov. 12.—From the reported confession made by Britt Smith and from the talk of a 16-year-old boy, District Attorney Loring has learned that the Centralia radicals had been plotting a conspiracy charge with which he expects to send to the gallows every man who was in the I. W. W. hall when the shooting took place.

The last words of Smith as he was strung up to the bridge, two miles southwest of Centralia, is alleged to have been a premeditated plan for the killings on the part of him and his associates and his only regret, according to witnesses, was that not enough of the soldiers had been killed.

The 16-year-old boy is Dewey Lamb, whose father was said to be a member of the I. W. W. He allegedly told the district attorney of the conversations he had overheard of the plans to kill the Centralia soldiers on Armistice day and of how the arms were smuggled into the building from which the shooting was done. The boy told of how he stood on a "violin" just out of range, "to see the fun."

Another bit of evidence is the inventory buried at Lieutenant Scott's residence, which is the local American Legion post, by the aged woman proprietor of the Roderick hotel, across the street from I. W. W. headquarters.

Screaming in her rage, a short time after the shooting, the woman said that Scales and "his gang" had planned to raid the hotel and that the "boys" had got the soldiers in revenge.

"You were marked and you can thank your lucky stars that you are living today," she is reported to have said.

No More Bloodshed Is Expected Now

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE. SPOKANE, Wash., Nov. 12.—No further bloodshed is expected at Centralia as a result of alleged instigation of the I. W. W. World killing four members of an Armistice day parade yesterday, it was declared in a telegram received here from Spokane.

Gov. H. H. Clark, who returned to Olympia this morning from Centralia, said that he had taken a train for Olympia early today after having remained up until 2 a. m. receiving reports from Centralia.

"(Wobblers from Seattle and Portland, with local men as instigators and participants," are blamed for yesterday's attack on the Armistice day parade in Sheriff's report to the governor. "The motive was to murder those who spoke at a meeting two weeks ago."

"There will be no further bloodshed in Centralia unless in resistance to arrest, which is probable," the telegram concludes. "There is no further bloodshed in this section, but everything is orderly."

Gov. Clark in a statement declared the action of the ex-service men yesterday in guarding alleged I. W. W. members in the jail at Centralia against mob attacks was "a remarkable exhibition of downright Americanism," and of the value of military training.

Combating Radical Elements for Years

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE. CENTRALIA, Wash., Nov. 12.—Centralia has been combating a radical element here for several years and yesterday's shooting was the climax of a series of conflicts. Two years ago, when the first Red Cross bazaar was held here, it was reported before the bazaar opened that the I. W. W. intended to dynamite the hall in which the affair was conducted. At that time citizens burned the fixtures in the I. W. W. hall and drove the secretary from town.

Last summer an agent for a Seattle labor newspaper was escorted to the city limits after it was charged he was making incendiary speeches. Later an I. W. W. known as "Blind Tom" was also taken outside of the city and told to keep going. Recently the protective league was organized. Every I. W. W. was to be listed, it was planned, and ordered to leave. As a direct answer to the citizens' declaration of war came the attack yesterday, according to officials.

Rifles Smuggled Into Building

BY UNITED PRESS. LEAD WIRE TO TRIBUNE. CENTRALIA, Wash., Nov. 12.—A special meeting of the combined Centralia and Chahals I. W. W. locals was held yesterday, according to the police and at that time the high-powered rifles, with which the shooting was done, were smuggled into the building whence came the bullets. Desultory firing on the members of the legion followed a terrific crash of glass—apparently a pre-arranged signal. The firing, second later developed into a regular volley.

The windows of the buildings in which the gunmen were stationed had been previously opened. The gunmen were some distance inside for they could not be seen.

The front rank of paraders was subjected to fire from three sides simultaneously a marksmen opened fire from Seminary hill, at least half a mile away. This man apparently used his rifle over a stump and fired, four 30-30 cartridges later being found at the spot.

53 Arrests Made in Portland Raid

PORTLAND, Ore., Nov. 12.—Reports that the Council of Workmen, Soldiers and Sailors were denouncing the American Legion and spreading reports that the legion had been responsible for the shooting at Centralia, Wash., yesterday, caused Mayor Barker to order a raid on the headquarters of the council last night, with the result that 53 men attending a lecture in the hall were arrested on charges of sedition.

Purge Country of Seditionists Is Plea

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE. WASHINGTON, Nov. 12.—The shooting of four ex-service men in an armistice day parade in Centralia, Wash., was described in the House today by Representative Johnson, Republican, Washington, chairman of the Immigration committee, as "an attempt to revolutionize the country by force, which the country has long feared."

Johnson sent a telegram to Mayor Rogers of Centralia saying the country "must be purged of seditionists and revolutionists, to the last one, and if this means war, the quicker it is declared the better."

"We of the Pacific Northwest have long seen it coming," he said. "We have been patient, have avoided bloodshed under every provocation, only to see these young men murdered. Their death will arouse the loyal people of the United States as nothing else has done."

"History will record these heroes as among the first to fall in an attempt at armed revolution against the United States, and for which every man who has been a coachman, hater, is responsible."

Test Case Delays N.Y. Raid on Reds

BY UNITED PRESS. LEAD WIRE TO TRIBUNE. NEW YORK, Nov. 12.—Further delay in the raid on the New York headquarters of the "reds" by the Lusk executive committee will not be made until test cases against Communist party leaders now in custody have been heard.

"The committee will prosecute the radicals already under arrest and defer the raid on the headquarters until after the test cases have been heard," said Archibald E. Stevens, assistant counsel for the committee.

James Larkin, Irish agitator, and Benjamin Gitlow, former New York assemblyman, however, were scheduled to appear before Chief Magistrate today for examination. They were charged with criminal anarchy.

Legion to Exclude I.W.W. from City

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE. SIOUX CITY, Iowa, Nov. 12.—The American Legion is to take steps to exclude I. W. W. headquarters from Sioux City, was the decision reached at the last night meeting of the legion late last night.

Alaskans Organize To Drive Out Reds

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE. SPOKANE, Wash., Nov. 12.—Citizens of Juneau and vicinity have formed an organization called "The Citizens' Committee to Drive Out the Reds," and have announced that they intend to try to oust radicals from Alaska, to defend Americanism and to combat Bolshevism and Industrial Workers of the World doctrine. Governor Thomas Riggs Jr. of Alaska is president.

Many members of the Juneau Labor union have joined the new organization. The men say they are endeavoring to oust radicals from control of the union.

L. A. Keeps Close Watch on Radicals

BY ASSOCIATED PRESS. LEAD WIRE TO TRIBUNE. LOS ANGELES, Nov. 12.—Following receipt of word of the Centralia radical outbreak of yesterday, police ordered every known radical and I. W. W. in Los Angeles placed under surveillance. An immediate report on the present whereabouts and activities of all these men was asked from detectives detailed for such duty.

Pale Children Need Gude's Pepto-Mangan

Unnatural for Children to Be Pale and Thin—Paleness Is Sign of Thin, Watery Blood

Pepto-Mangan Makes Red Blood

Prepared in Liquid and Tablet Form—Both Possess Identical Medicinal Qualities.

It is necessary for boys and girls to laugh, romp, play and enjoy themselves, for it is at that stage of life that the foundation is laid for future health.

Prompt attention should be given to the child who seldom laughs, whose physical condition prevents playing like the other children, whose appetite is poor, and who tires easily.

If the lassitude is due to poor blood, which is often the case, a simple, safe, and pleasant remedy is Gude's Pepto-Mangan. It is just the tonic for pale, thin children. Gude's Pepto-Mangan contains the very ingredients that increase and enrich the blood, enabling it to supply the entire body with the sorely needed vigor, strength and vitality that make happy, romping children.

For the convenience of the public Gude's Pepto-Mangan is prepared in both liquid and tablet form. Both forms possess exactly the same medicinal properties.

When you ask the druggist for Pepto-Mangan, look for the name "Gude's" on the package. If it is not there it is not Pepto-Mangan.—Advertisement.

Back-Ache

Usher Up With Penetrating Hamlin's Wizard Oil

A harmless and effective preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff, aching joints and muscles.

You have no idea how useful it will be found in cases of every-day ailment or mishap, when there is need of an immediate healing, antispasmodic application, as in cases of sprains, bruises, cuts, burns, bites and stings.

Get it from druggists for 20 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 20 cents. Guaranteed.—Advertisement.

HALL RAIDED BY FORMER SOLDIERS

(Continued from Page 1).

rests being made is being variously fixed.

Police Inspector Fenton G. Thompson, who was supposed by the Federal officials to have been there, and for whose report it was announced that he was waiting before taking action, said that he did not go to the meeting as it was his day off. He said, however, that had he been there and the things happened that had been reported, "there would have been something doing."

Thompson said that he had informed District Attorney Ezra Decoto that the meeting was to be held and that Decoto had said, "go carefully, I don't want to clog the calendar." Thompson said that he had informed Chief of Police Lynch of the proposed meeting but that no one was sent from the department.

District Attorney Decoto denied today that he had instructed Police Inspector Fenton G. Thompson not to raid the meeting of the "reds" who organized the Communist party in Loring hall Sunday, as Thompson has been quoted as declaring was the case, "because the Superior court calendar was crowded."

"I gave no instructions to Thompson that he was or was not to raid or break up the meeting of the Communist party," said Decoto. "It is not the business of my office to make arrests nor to prevent violations of the law, though of course I should do that if possible. It is my business to prosecute persons charged with crime, not to police the city. That is up to the police department. If Inspector Thompson knew a meeting was being held where the law was being violated it was his duty to suppress it and to make whatever arrests were necessary."

Thompson did tell me that a meeting of communists was to be held but I did not know the specific nature of it nor what would be the developments, neither did I tell him not to make arrests. I told him to get his evidence right in handling the matter. I did say something about our calendar being crowded, but that was in reference to the necessity of having his evidence in the Manhattan post of the American Legion is to take steps to exclude I. W. W. headquarters from Sioux City, was the decision reached at the last night meeting of the legion late last night.

Eastbay Officials Visit Hetch-Hetchy Project and Obtain Data on Proposal

Realizing the importance of the water question to the Eastbay, a special correspondent was sent by THE TRIBUNE to accompany the officials who recently visited the Hetch-Hetchy project. The following is a report of the discussion held by the officials:

Just how the Hetch-Hetchy project strikes the various Eastbay city officials who made the trip over the Hetch-Hetchy territory last week is difficult to sum up in a few words. The principal utterances were made following little rest periods at chief inspection points, or after dinner in the evening. On these occasions City Engineer O'Shaughnessy usually gave a partial summing up of operations of a portion of the project and then assumed the attitude of a platform lecturer prepared to answer questions from the audience after the main talk is finished. Most of the questions and statements were along the line of securing additional information for individual use, or for the purpose of securing the general view of the assembled company as to the proper procedure for the Eastbay cities to adopt if it was later deemed advisable for the Eastbay communities to participate in the Hetch-Hetchy project. The talk

included legal phases, present laws, the formation of a metropolitan district of the east side of San Francisco, or form a district of the Eastbay cities excluding San Francisco. It also included the price of water San Francisco would charge if the metropolis sold water wholesale to other communities from the nearest pipeline or aqueduct point, which will probably be Irvington. The position of the irrigationists, the pending and settled litigation, the possibility of future litigation, bond issues floated, authorized but not yet issued, and to be issued, and the matter of power were all touched upon at these little hearings. The most extended affair of this kind was held Friday night at Hetch-Hetchy following dinner, and following an inspection of practically the entire mountain part of the project. The opening statement at this meeting by O'Shaughnessy and the questions and statements of members of the party will give some insight into the status of the Hetch-Hetchy in the minds of different members of the party. The statements and questions follow:

O'SHAUGHNESSY'S TALK
Host O'Shaughnessy—Gentlemen you have now seen the larger portion of the Hetch-Hetchy project. There are other portions, some of which you will see later, and there is a vast amount of detailed information which it is impossible to secure in the limited time available. I will sum up some of the chief features which may be of interest to you. We could have built the two million dollar Hetch-Hetchy railroad for a half million less than it cost but, like everything else, we have

undertaken, the railroad is built in permanent manner. We expect to derive considerable revenue hauling out the two million tons of lumber freight from 100,000 acres of virgin timber hereabouts. We will haul in about 60,000 tons of cement for the contractors use in the Hetch-Hetchy dam at \$3 a ton. We charge the contractors freight haulage and for the light and power they use. We got \$50,000 for excess power sold to the Sierra company last year, from a plant which cost \$500,000 and supplied in addition all the power and light wanted on the work. The power plant cost includes the Eleanor dam, \$310,000, and the twelve mile road to Lake Eleanor from Hetch-Hetchy, \$25,000 more. We are falling the timber on the Lake Eleanor reservoir area because that was one of the conditions we accepted in getting the land. We cut the timber from the Hetch-Hetchy to get rid of the mosquitoes and the nature lovers. The nature lovers were all right but enemies of Hetch-Hetchy made capital out of them to harass our work. It has been one continual struggle for years. Now we have about won out. We own all the land in 100 square miles, about 12,000 or nearly half of the Yosemite government reserve. We settled our last litigation in a condemnation suit at Sonoma a few days ago when we paid \$8000 for 500 acres in the lower valley. Everything is cleaned up now save the Sierra Club property in upper Hetch-Hetchy. If the Sierra Club stays there strict rules will be observed to guard against pollution of the water.

BRIEF'S AT NICKEL A TON
In spite of litigation and other hampering drawbacks we have gone steadily ahead with the work. The results to date you have seen. While lawyers fought in courts we have worked here. I believe there are five tons of legal briefs on file in my office. I wouldn't give five cents for the whole lot. I have more faith in picks than in briefs. There is no politics in this work. There isn't a man on this job who owes

his place to politics. There is no civil service. We try to pick the right man for the right place. The work has been well and economical. I don't know of any other big public works of Hetch-Hetchy railroad for two million dollars. In San Francisco it cost seven millions to build sixty miles.

THE IRRIGATIONISTS
We have plenty of water to take care of the irrigationists. We can supply three-acre feet for 300,000 acres a season. The highest possible tillage within the irrigation district affected will be 270,000, leaving an excess irrigation supply for 30,000 acres. The district is limited to this acreage. We can let them have 900,000-acre feet of water a year and still have left 1,100,000-acre feet for domestic purposes, a supply greater than the demand will be 100 years from now.

In 100 years there will still be water from Hetch-Hetchy going to waste. We want the irrigationists to build reservoirs to insure that possible water needed for seasons. The Transbay Water Company is long on land and small pipes and short on water. You should form a great metropolitan water district. If it desires, according to the terms of the grant. But it is necessary for you to make up your mind what you wish to do in order that we may know what size of pipeline to run across the San Joaquin valley.

EAST SIDE UTTERANCES
At this point the various members present started asking questions. Answering a question of City Manager E. Hewes of Alameda, O'Shaughnessy said: The east side can join either as a customer of San Francisco or a participant in the Hetch-Hetchy undertaking. The water will come to Irvington as the major point. The east side might be complex to join as a participant unless San Francisco joined a metropolitan water district. You could, however, have two years in which to make up your mind.

Suppose the east side cities did make a contract to purchase water from San Francisco at a given price, would not the railroad commission come along and its rates regardless of the contract existing? I have in mind the South Pasadena case in which South Pasadena desired to purchase light and power from the railroad and the commission refused to grant permission and compels South Pasadena to buy from private power concern.

City Attorney W. J. Locke of Alameda—The South Pasadena case should not be figured upon. I think there is not the slightest doubt but that the railroad commission will be reversed in the courts.

O'Shaughnessy—The Eastbay cities, if they made a contract to purchase, ought to be in a position to make a permanent contract.

City Attorney O. J. Hall of Richmond—I think we would have to have tentative figures on the water price we would be in a position to take action of any kind.

PURCHASE PRICE OF WATER
O'Shaughnessy—About the only base we have on which to make a price is the base rate of New York in selling water to the communities along the New York water system. This price is thirteen or fourteen cents per 1000 gallons. I think you could rely on that figure. This price would be for water delivered at Irvington. There would be no limit to volume of water to be had.

City Attorney Locke of Alameda—I think at this time we should testify

to the courtesy of our host, City Engineer O'Shaughnessy. I feel sure and feel grateful for the opportunity to see the Hetch-Hetchy. Taking up the actual situation personally I favor the formation of a metropolitan water district and I am opposed to the contract plan. I think the metropolitan district is the only plan under which we could proceed. It is a complex situation.

WATER IN SIX YEARS.
O'Shaughnessy—The Moccasin creek power plant will be in operation in three years, but water will not be ready for delivery at Irvington for six years, and this means steadily work with no further interference. However, I think there will be no further trouble. We have about cleaned up the obstructing matters.

Mayor Bartlett of Berkeley—Suppose the Eastbay cities did buy water from San Francisco. Would not the price be fixed at a figure to pay a just profit to San Francisco on the initial investment and work of construction. Would this price be lowered later when the initial cost had been met and a smaller return to San Francisco would still carry a profit?

O'Shaughnessy—Spring Valley has member that San Francisco takes all the risk.

Mayor Bartlett—The rate made us would take account of the risk. When the cost is less would our rate be less or San Francisco's profit greater?

MASSACHUSETTS DIFFERENT.
City Attorney Frank Cornish of Berkeley—In Massachusetts the legislature largely governs the procedure of cities. The Massachusetts law has been cited in connection with a possible Hetch-Hetchy procedure. The Massachusetts law would hardly answer for California. But we already have all the laws necessary to enable the Eastbay cities to go in with San Francisco on a water project it is so desired. We are already authorized

to issue bonds and to organize for the acquisition and operation of public utilities. It is necessary for us to go into this matter thoroughly. Are not the Eastside cities just as much interested in power possibilities here as in water? As to the rate to be charged, any rate made would be subject to future conditions. If cost of water went up the rate might be too low. Again if water costs went down the rate might be excessive.

Councilman C. D. Heywood of Berkeley—If all the bay communities join with San Francisco in the Hetch-Hetchy why could not the cities, bond issue, purchasing of the Spring Valley and the Eastbay Water Companies be prorated on a 60-40 per cent basis, or the proper basis as per assessed valuation?

City Engineer Marston Campbell of Oakland—It is necessary for the Eastbay cities to make several decisions promptly. It is necessary to decide whether or not they wish to join in the Hetch-Hetchy and how. Then the other steps will follow. If we are going to do this in time action is needed. I would favor San Francisco buying the Spring Valley and the Eastbay Water Company.

BUYING WATER COMPANIES.
Cornish of Berkeley—There is talk of buying only the useful portions of the Spring Valley and the Eastbay companies. What are the useful portions? What is useful now may not be useful after Hetch-Hetchy is acquired. Again, portions not useful now may be needed later. It is very difficult to tell what is useful and what is not.

O'Shaughnessy—You must re-about 800 acres of useful land in San Francisco. The other 2000 acres or so should be thrown out. There is also a similar condition at Pleasanton.

City Manager C. E. Hewes of Alameda—Included in the water company buildings are reservoirs and reservoir sites. I think it would be desirable to have the reservoir sites. Councilman George Schmidt of

Berkeley—I am opposed to paying one cent more for the Spring Valley and the Eastbay than they are worth. The claims of value the water companies make are not true. These claims are highway robbery. Don't let any side shows interfere with going ahead with water projects. Don't advocate the purchase of the Spring Valley or the Eastbay. Go right ahead. Don't be a purchaser of Hetch-Hetchy water from San Francisco. Be a partner. I think we will get water for six cents per 1000 gallons.

Mayor Frank Otis of Alameda—I think that a plan for the Eastbay cities to participate can be worked out. I think the water district plan is the best. This matter should be placed before the people and steps taken to secure needed legislation. I think the Eastbay cities should get started in this matter. I will say now that I am amazed myself at the progress already made, at the construction work carried out.

City Attorney H. L. Hagan—I think that we have all needed legislation to go ahead. There are problems to be solved. One of the chief things is for the Eastbay cities to decide if they wish to join in the Hetch-Hetchy and how. I believe there will be no difficulty in carrying out the formation of a water district or buying water from San Francisco of the Eastbay communities.

Commissioner Fred Soderberg of Oakland brought up the Baker bill, which provides that all possible supply now available must be utilized before the Hetch-Hetchy plan could be put into effect. It was the consensus of opinion that the Baker bill provisions were not a bar to the Hetch-Hetchy project.

O'SHAUGHNESSY THANKED.
At this point the forum adjourned but not until Mayor Bartlett of Berkeley, Mayor Otis of Alameda and other members of the party had expressed their appreciation of the efforts of Host O'Shaughnessy to make the visit both pleasant and profitable. A rising vote on a motion

to thank the San Francisco engineer for his efforts closed the session.

British Couple Escape Bolsheviks

There are 25,000 heads of cheese in Bisk, according to A. W. McVeigh, British agricultural expert who arrived in this port from there yesterday. But we should worry, says McVeigh, for Bisk is too far away for Americans to nibble on the cheese with any convenience.

Bisk is a country entirely surrounded by Bolsheviks. It is situated in Siberia, 2000 miles from Vladivostok, and the cheese-makers have no way of getting their produce out. It is a great place for cows and the butter fat, he says, amounts to nearly 7 per cent of the milk.

McVeigh says the local name for Bolsheviks is "Hooligans." He says the movement is not directed by any responsible authority, but that they comprise scattered bands, who rove and maraud, demanding from the well-to-do. Speculation among the rich merchants has been the real cause of Russia's demoralization, he says. The price of labor has gone up from \$10 a month to \$2 a day, and a steam valve that formerly sold for a dollar now commands \$500. A ruble is worth about .25 cents. McVeigh and his wife escaped during a savage uprising of the Bolsheviks, arriving here on the China steamer Nile.

SCHWAB TAKES VACATION.
PASADENA, Nov. 12.—Charles M. Schwab, accompanied by Mrs. Schwab and a secretary, arrived at a local hotel yesterday for what he said will be his first "real vacation" in thirty years. Schwab said he did not care to discuss industrial questions, saying "there has been too much talk already."

MILK TOAST DIET TOO MUCH FOR HER

"I doctored for years with only temporary relief. My liver was very bad. After eating I would always have such a fullness in my stomach and my heart would palpitate. I could not eat milk toast without distressing me. Since taking a course of Mayr's Wonderful Remedy, more than a year ago, I can eat anything my appetite desires." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At druggists everywhere.—Advertisement.

U.S. IS LOSING ITS PATIENCE, SAYS HOOVER

BUFFALO, N. Y., Nov. 12.—The American people are fast losing patience with foreign-born persons in the United States who interest themselves in the destruction of our primary institutions and defiance of our laws, Herbert Hoover told the Polish conference here today.

The "open door" toward Europe may be in a large measure closed if this attitude toward foreign persons persists, Hoover said.

The people of the United States are today facing great social and industrial difficulties.

"If we are to solve these difficulties it will be by undivided support of our institutions from which we have obtained the blessings we enjoy."

"If reforms are needed in the United States they will be carried out by those whose parents have grown up amid our institutions and those who have become in sentiment and spirit a part of our people."

Reviewing the birth of the Polish republic, Hoover praised "two great men—Paderewski and Sulski."

Former Flier Held On Woman's Charge

SACRAMENTO, Nov. 12.—Elbert D. Grumbles, formerly a lieutenant in the aviation service stationed at a California flying field, has been arrested in Texas on a charge of obtaining money under false pretenses.

Filed by Mrs. Zoah Edwards of Sacramento, according to a telegram to the sheriff's office here today, Mrs. Edwards alleges she gave the former officer \$1400 to invest for her and he converted the money to other uses.

Eases Colds

At once! Relief with "Pape's Cold Compound"

The first dose eases your cold. Don't stay stuffed-up! Quit blowing and sniffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

Relief awaits you! Open your congested nostrils and the air passages of your head; stop nose running; relieve the headache, dizziness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Taste nice. Contains no quinine. Insist on Pape's!—Advertisement.

Governor Stephens Lauds American Boys Who Fought Germany in the World War

LOS ANGELES, Nov. 12.—How men live and to what purpose concerns the world more than how long they live, declared Governor William D. Stephens of California, here last night at the Armistice day "welcome home" celebration in honor of returned soldiers, sailors and marines of this state, to whom the chief executive extended "the heartfelt welcome of three million appreciative people."

"We are gathered today, exactly twelve months after the firing of the last gun on the battlefields of France and on all our ships of war, and the signing of the armistice which closed the greatest struggle in the history of the world," said the governor. "This day has been designated as Armistice day, and also as Welcome Home day, that we may celebrate the home-coming of the men who represent us on all the battlefields in France and in all the corners of the world."

"We are proud of these men, not only because they have worn the American uniform in response to a call for service in the bloodiest conflict man has ever known, although our allegiance would have commanded our appreciation and lasting gratitude—but we honor them more especially for the magnificent qualities which they have shown."

Reviewing the service that has transcended a mere response to military duty.

"California contributed loyally to the success of the Americans on the battlefields of France. When the appeal for men was sounded by our president, the response from our Californians was prompt, spontaneous and in full measure."

"We all remember the days when our young men, in civilian dress, gathered from city, country, hamlet and farm, marched through the streets and no wonder that what sort of soldiers they were to make and what part they were to play in a war whose frightfulness was well understood."

"On they came from thousands of homes everywhere. Quitting their profitable employments, postponing their high ambitions, they left behind them their earned prospects in life to engage in the awful game of war."

"Not for the love of the fight, but for the love of the right, they marched and fought. True to the high principles of American manhood—splendid indeed was the spirit they showed."

"Back to our American homes millions of these brave sons have been streaming as the demobilization of our armies has proceeded. And now, in behalf of the whole State of California, I extend to our returned heroes the heartfelt thanks of three million appreciative people."

TRIBUTE TO DEAD.

"There will be vacant places in thousands of homes, homes where the golden days of childhood and youth were passed in the quietude of the measure of patriotic sacrifice. A grateful nation's love and gratitude is the only offering that we can tender those whose dear ones fell in France and Flanders in defense of liberty and justice. They have sacrificed that free government might not perish from the earth. The heroism and patriotism of our departed sons is a glorious memory. Having made the supreme sacrifice for home and country, that nation and equality might not perish was the ideal those splendid heroes rest in."

"It is not so much a long men"

TURKEY PRICE TO DROP, PREDICTION

Earlier reports that turkeys would be scarce and unusually high. Thanksgiving, are not borne out by information just received by S. Herman, local wholesale commission merchant, who is in close touch with all the turkey raising sections of the United States.

According to Herman, there will be plenty of turkeys to meet the demand and prices will be no higher than they were last Thanksgiving. If as high. He expects to see extra fancy birds retail at prices ranging from 52 to 55 cents a pound, with many good table birds, not so well colored, retailing as low as 45 cents a pound.

Turkeys for Christmas will be much cheaper than they were at that time last year, it is expected, according to Herman. This will be brought about, he says, by the shipment of many carloads of turkeys from Texas and other states, where birds are plentiful this year, into the California markets. As turkeys mature in three months, he says, when they do in California, they will not reach local markets in time to affect the Thanksgiving trade, but will reach the day long before Christmas.

The Pacific coast supply of turkeys will be fully up to that of last year, according to Herman, who says that this is especially true of California. While coyotes have played some havoc with turkeys in Southern California, the large supply in the northern part of the state will more than offset the shortage in some of the counties in Southern California. The birds are in excellent condition, Herman says.

Oregon is also reported to have a good supply of turkeys this year. On the whole, the United States will market more turkeys this year than it did last, according to reports received by Herman.

'WATERED' SUIT FOR DAMAGE CUT

"After squeezing the 'water' out of this alleged debt, I find there is \$64.68 due."

Thus spoke Justice of the Peace Harry W. Pulcifer in giving judgment for that amount to Mrs. Ella Nottingham, who sued F. C. Shafford for \$399 for alleged injuries to her automobile resulting from a collision of their cars several months ago at Tenth and Franklin streets.

Shafford's machine was a truck, which Mrs. Nottingham declared cut the corner instead of going around, as prescribed by ordinance and the direction of the traffic officers.

Part of the "water" referred to by Judge Pulcifer, he said, consisted in a claim for \$21 which she said her husband was damaged because he was deprived of the use of the car for three days at a loss of \$7 a day.

It was shown that the machine belonged to Mrs. Nottingham and that her husband was not a party to the action.

It was also claimed that the value of the machine had been depreciated by the accident, but Shafford put experts on the stand to show that the price for which Mrs. Nottingham subsequently sold the car, \$850, represented the normal depreciation from its original cost of nearly \$1300 during the time she used it.

Caine to Attend Good Roads Meet at Reno

Joseph E. Caine, state consul for the Lincoln Highway Association, and managing director of the Oakland Chamber of Commerce, will be among the representatives from this city to the Good Roads convention in Reno, Nevada, next Saturday.

Various chambers of commerce in California will send delegates to the meeting and automobile associations also will be represented.

The purpose of the meeting is to outline a concrete program for the construction of a permanent highway across the state of Nevada into northern California.

George A. Campbell, president of the Nevada Highway Association, will preside at the meeting.

It was also claimed that the value of the machine had been depreciated by the accident, but Shafford put experts on the stand to show that the price for which Mrs. Nottingham subsequently sold the car, \$850, represented the normal depreciation from its original cost of nearly \$1300 during the time she used it.

PLOT TO 'CAPTURE' HOTELS REVEALED

NEW YORK, Nov. 12.—Danger a general strike of hotel employes with its ultimate object the "taking over" of hotel properties was discussed today at the thirty-four annual convention of the New York State Hotel Association.

Assertion that December 20 had been decided upon by radical leaders as the date for such a strike was made by Frank Boland, attorney for the association.

"You may not realize it," he said, "but a secret movement to take over your property is on foot. Don't for any sense of security. It is dangerous just now, and the movement general throughout the state."

Advocating a "house cleaning" while the opportunity is at hand, Boland urged hotel men to "take faithful employees into your confidence, and do not be caught guard."

DUKE KAHANAMOKU ACCUSED OF BEING AFRAID OF ROSS

T. SIMPSON AND HIS CREW ABANDON WEST OAKLAND AND MOVE OUT TO LIVERMORE RANCH

IDOL OF ISLANDS IS DENOUNCED BY SPORT WRITER OF HONOLULU

Famous Duke Accused of "Quitting Cold" When Ross and Kruger Arrived

Duke Kahanamoku is in very wrong in his home town on account of his refusal to get into competition with Norman Ross, "Stubby" Kruger and other stars who went to the island for the big carnival. Duke explains his absence from competition by saying he tightened his muscles rowing, but those who have watched the big fellow closely opine that he has seen his day and remained out of the carnival because he realized he would be defeated.

When Kahanamoku was here summer before last he swam at Neptune Beach, but insisted on nothing but handicap races. It was the prevalent opinion then that the once great Duke was through and the tankside experts would have bet their bankrolls that Clarence Lane, the St. Mary's College star, could take Kahanamoku's number in the 100-yard event.

Leonard Withington, sporting editor of the Pacific Commercial Advertiser, published in Honolulu, recently wrote the following criticism of the Duke:

The Duke has quit cold. Faced with the stiffest competition in the world in a swimming meet which has attracted attention wherever swimming is popular, he has refused to enter the Fall Swimming Meet after Norman Ross, "Stubby" Kruger, George and Francis Coveille, who have brought thousands of miles to meet the local talent in what promises to be one of the finest aquatic carnivals held in the islands.

The man who has received local and even world-wide adulation, pages of publicity and many honors, whose picture is featured in the Hawaii Tourist Bureau booklets and letterheads, has pleaded muscles hardened from rowing that prevent his being at top standard.

Duke Kahanamoku is a swimmer. He has received his honors for swimming. He knew the Fall Swimming Meet was planned long before the regatta. He knew that he would be expected to lead the representatives of Hawaii in the carnival. He went into rowing and now he is not willing to stand the gaff.

VISITOR GOOD SPORTS. The visiting swimmers have shown themselves good sports. They have entered generously, so that the public can see them swim in many races. The local swimmers, except Duke, are doing their best. He said in his tent and talks about muscles. What he needs is backbone.

The sporting editor of this paper was approached by members of the swimming committee and asked whether he would protect the Duke in case the latter was a good sport and entered, despite the muscles. The reply was that if it were shown that the Duke was really handicapped by "rowing muscles," or was in poor condition, this paper would be glad to recognize his sportsmanship, say in advance that he was in the condition which he was proven to be in, and in case of his defeat, without detracting from the work of the winner.

But that was evidently not enough for the Duke. The committee reported to him. He did not prove to be so much of a sport as the truth is now clear.

WORLD WIDE FACTS. When it became known that the Duke was not to repudiate his muscles, the committee members pleaded that it would hurt the sport.

To them the Advertiser replies that for Hawaii not to repudiate Duke's action will hurt the sporting reputation of the islands far more than the Duke's action will hurt the sport.

The quiting of Duke will be heralded far and wide in the press. The wireless will carry it to the mainland papers, and correspondents will write of it. The swimmers will take back to the Pacific the Crossroads of the world, will take a pack of cards when it is known that our swimming idol has feet of clay, and that we are too blind to see it.

We owe it to our swimming guests to show them that their sportsmanship is recognized and

that we demand no less of our own. Some of the committee say that Hawaii has done very little for the Duke. Since when has it become the thing that the world owes an amateur athlete a living for his sport? If it does, the structure of amateur sport falls in ruin. After the present de-moralization, who will have the hardihood to say that Hawaii owes the Duke anything?

A SILLY EXCUSE OFFERED. Others of the committee accuse the Duke's failure to come across with a clean-cut action, and his lack of a sufficient job by saying that he "is a Hawaiian."

The Advertiser protests in the name of the Hawaiian people, whose members are self-supporting and many of whom are well-to-do. The race has too much self-respect to let a slur like that go unchallenged. The Hawaiian people will be among the last to back up a slacker or a loafer, whoever he may be.

The Duke has had his chance, and he missed it up. The chance of his being sent to the Olympics in 1920 is gone and Hawaii will be ready to welcome some swimming idol who is worthy to represent her in the water.

No Meeting Held of National Comish; B. Johnson Absent

NEW YORK, Nov. 12.—Contrary to expectations no meeting of the national baseball commission was held here yesterday.

Despite rumors to the contrary it was stated that President Johnson of the American League is in Chicago and is not expected to arrive here until the end of the week.

President Heydler of the National League said today that so far as he knew there would be no meeting of the commission.

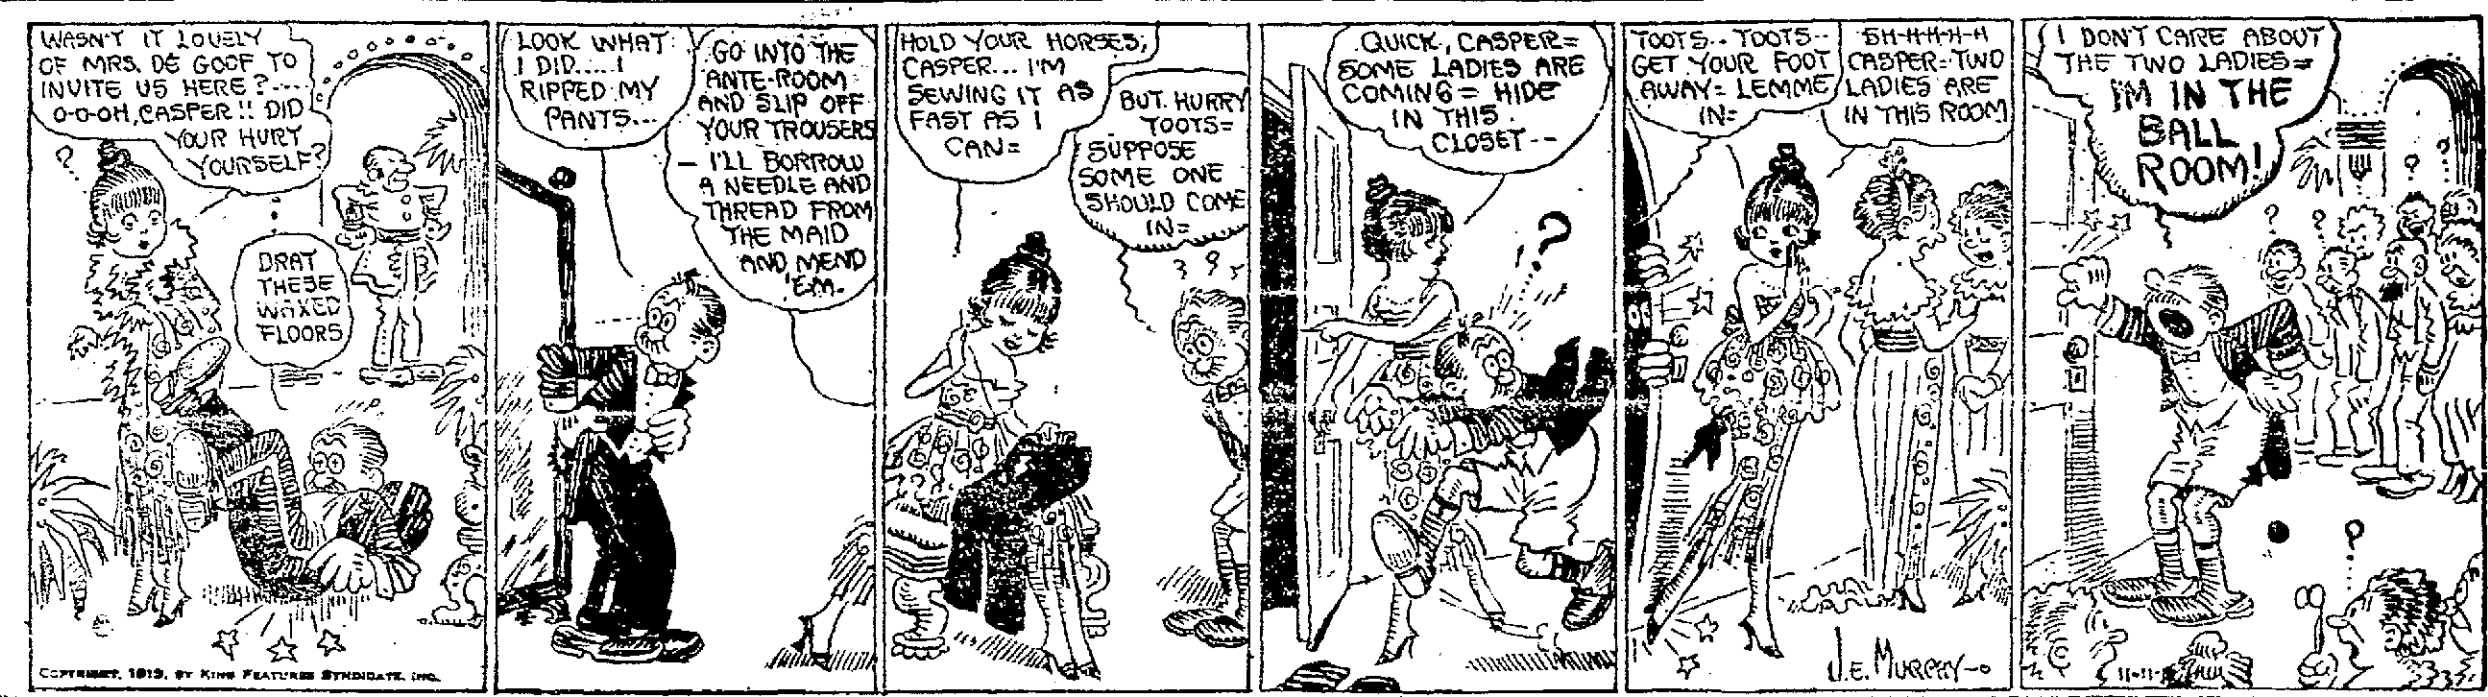

There is no intention at this time, said President Heydler, of making any move toward distributing the world series prize money claimed by the New York American League club. So far as I can see the American League will have to decide between the board of directors and the league as a whole, and decide definitely which club has a legal right to the money. Until this is done the hands of the commission are tied so far as the disposal of the money is concerned.

LISTEN TO WILLIE. OGDEN, Utah, Nov. 12.—Al Young of Ogdien secured a decision last night over Willis St. Clair of Salt Lake, who claims the lightweight boxing championship of the Pacific Coast, in twelve rounds. In the semi-final Jack Ryan of Ogdien was given the decision over Joe "Wop" Finn of Chicago in six rounds.

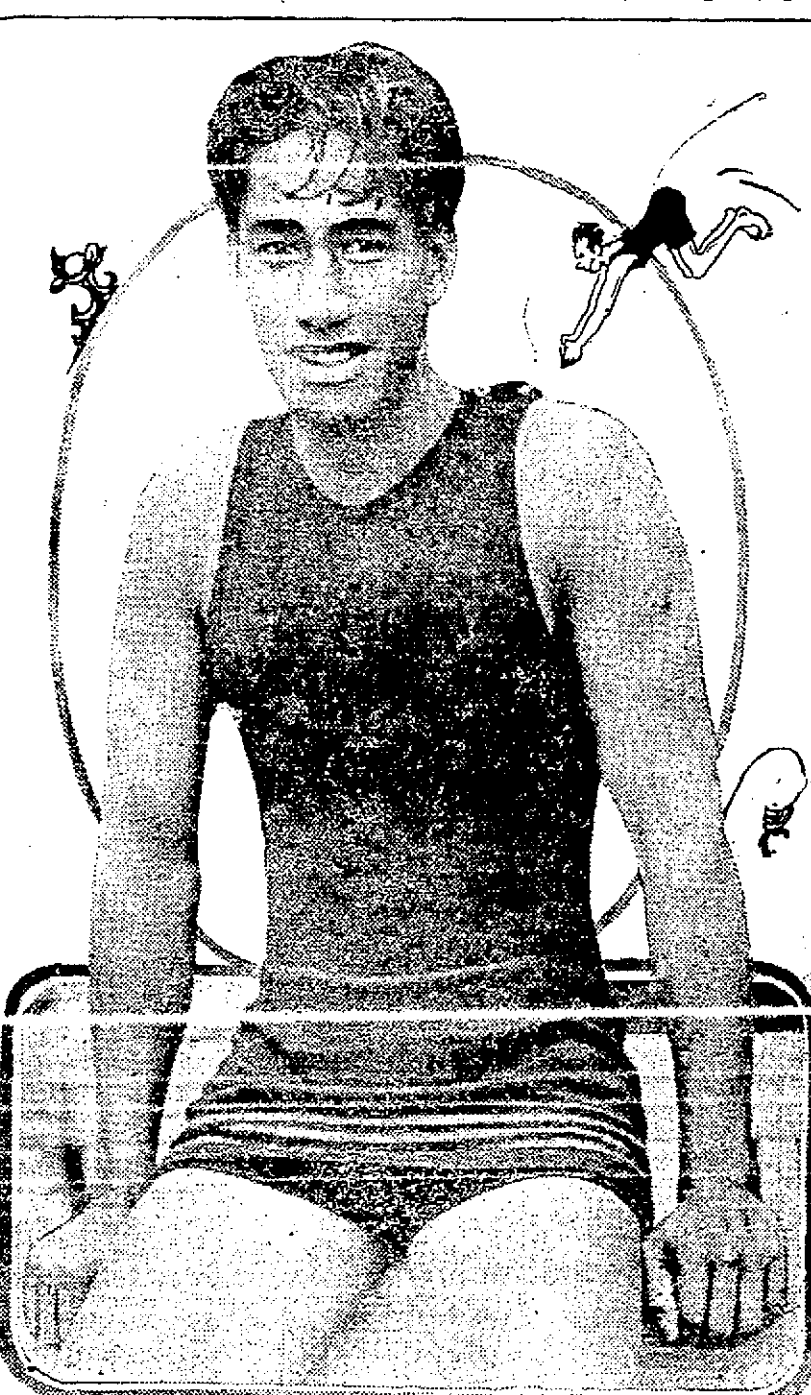

We owe it to our swimming guests to show them that their sportsmanship is recognized and

TOOTS AND CASPER

'T WAS OUT OF THE FRYING PAN INTO THE FIRE FOR CASPER.

PREPARING HIS SWAN SONG

DUKE KAHANAMOKU, holder of several world's records and the greatest swimmer of the present generation. Duke's absence from competitive swimming and his recent form indicate that he has reached the end of the trail as a champion paddler.

BATTLE OF THE FRESHMEN SCHEDULED FOR SATURDAY

California and Stanford Babes Are On Edge for Their Own "Big Game"

By DOUG MONTELL. UNIVERSITY OF CALIFORNIA, Nov. 12.—The big battle between the rival freshmen classes of Stanford and California approaches with the coming of November 13, and it is the biggest sporting event on the local calendar that has been scheduled these many months. Heralded across a wide area as the first football contest between the two freshman classes of Stanford and California in nine years, it ought to be a good go to make up to the public for the lack of competition between these two factions during this long period of time.

Representative prospects of the two teams have been said to have an equal chance to win the struggle. The California freshmen have suffered from a lack of practice, but they have been able to make up for this by playing a number of games during the season and by enjoying their first winning streak this week before the big game.

On Stanford's part little is known. The Cardinal freshmen have been hitting on all four in their last few games, and are looked to have a bunch of the jazz ready to unload about next Saturday. The Stanford freshmen have been playing a number of games during the season and by enjoying their first winning streak this week before the big game.

ON STANFORD'S PART LITTLE IS KNOWN. The Cardinal freshmen have been hitting on all four in their last few games, and are looked to have a bunch of the jazz ready to unload about next Saturday. The Stanford freshmen have been playing a number of games during the season and by enjoying their first winning streak this week before the big game.

THEY HAVE EASILY MATCHED. The battle should be pretty even from start to finish, according to the advance advertisements. After the successful game against the tricky U. S. C. freshmen last Saturday, the California freshmen have taken a new lease on life and have been able to rebound after their season of preparation. The Stanford freshmen have been hitting on all four in their last few games, and are looked to have a bunch of the jazz ready to unload about next Saturday.

HEINIE BENZEL RETURNS. VALLEJO, Nov. 12.—Sergeant Heinie Benzel, who held the service record for many months during the war-time period, has returned to the main barracks at the yard from overseas duty.

TOMMY SIMPSON CLOSES "JOINT" BUYS A RANCH

Has Three Foremen, But No Help for Them to Boss

By BOB SHAND. In the good old days, B. P. when Tommy Simpson started his day's labor, he rolled up his sleeves, stuck a ten-center in the starboard corner of his mouth, and ordered them to get busy wipin' glasses and cleanin' up the bar.

Now Tommy awakes with the first call of John Rocco, a clerk for his trusty henchmen and chirps "Hey, Broom, you go milk the chickens and give the cow some bones to eat and don't forget to go out to the orchard and get some tomatoes off them trees. And you, 'Smooth,' give the cattle their morning bath and then get a shovel and go plowin'."

Closes "the Joint" Tommy has returned to the simple life. The shutters are up on the historic Eagle Cafe down at the Point and no longer will the little four-rounders get "Oakland 2683" from Miss Central and beg the little red-head for a fight.

On the theory that it was cheaper to close the joint than remain open, Tommy has ordered his well-known "bee" Mr. Simpson ordered his hired hands to wrap up what stock the customers had not already wrangled themselves around, and the little pictures of the wall and blow the joint.

An' better take the bar rail with you, Broom, chirped the promoter and boniface, "you can stick it up in the barn out at the ranch and feel at home when you ain't workin' but believe me if you are going to be one of my ranch hands you gotta toil and labor and spin or whatever it is they do on a regular farm. If you don't feel like packin' the rail all the way to Livermore leave it here and maybe I'll get a blacksmith to bend one and drape it around the well. Then you can stand with one foot on the rail while Ortega, he will be good exercise for the fighter and it will keep you from gettin' homesick."

Weeping and Wailing When Tommy hung up the shutters the bar almost floated out of the front doors. There were enough tears in the air to grow a crop. Ortega, "Smooth" and Jimmy Duffy acted as pallbearers for the legs and barrels, while Simpson wore a sad look and preceded the funeral detachment. Sympathetic friends from all over West Oakland peeked in the door and took a farewell sniff of the hops and the all the way to Livermore leave it here and maybe I'll get a blacksmith to bend one and drape it around the well. Then you can stand with one foot on the rail while Ortega, he will be good exercise for the fighter and it will keep you from gettin' homesick."

Hint for Fighters I am a farmer now and I don't care who knows it. I saw Mr. Simpson this morning, "but I would like all the little four-rounders to know it. There are a lot of stumps and trees and things on the ranch and they can be removed with no cork-screws. It would be fine training for them pugs to come out and take off their silk shirts and go to work on the ranch and when there now, but they are all stickin' around waitin' for somebody to boss. Ortega, Broom and "Smooth" are good foremen, maybe, but it ain't gettin' nothin' lettin' them be foremen when they ain't no guys to work for them. Yesterday I told them to shake dice in a shoe who was to be foreman and who was to shell the tomatoes and take the pits out of the cucumbers, but they ain't gamblin' NOW. "Smooth" says his quit stakin' when he shot up that tin tin and Broom won't even shake a leg unless he hears somebody yellin' "DINNER." Ortega shakes a little bit when somebody shakes about WORK, but that ain't makin' the referees or pickin' the referee."

Crazy Like Mr. Fox Tommy's ranch is situated either at Livermore or Pleasanton. He is not quite sure. Maybe it is midway between these thriving cities. All he knows is that it is right next to Louis Bernstein and that he is going to make a lotta money off it. Asked why he was so sure that the ranch would pay his dividends he admitted his ignorance of agricultural affairs. "But," chirped the wise little harp, "that guy Bernstein just bought the place next to mine and I don't think he got rich making him buy. Any time Louis buys anything there is money in it and whatever he does on his ranch I am going to do on mine, and we'll get rich together."

Oakland Elks Beat Monterey By 2-1 Score

DEL MONTE, Nov. 12.—The Oakland Elks, headed by Erick Devereaux, triumphed the Monterey Elks in a game played here last night. The Elks won by a score of 2-1. The game was a real celebration in honor of the return of the Elks to the county back from the war.

Kramer Wins on a Foul from Lincoln

TUCSON, Ariz., Nov. 12.—Darryl Kramer of Los Angeles was awarded the decision on a foul in the eighth round of his scheduled ten-round bout here last night with Ralph Lincoln of Tucson.

ZULU KID BEATEN. ST. LOUIS, Mo., Nov. 12.—Johnny Acher of this city, bantam champion of the world, was awarded the newspaper decision over Zulu Kid of Brooklyn in an eight-round bout here last night.

Double Main Event At Naval Hospital

VALLEJO, Nov. 12.—Promoter Scotty Watts of the Naval Hospital Athletic Club announces that he will offer the "cash customers" a little innovation at the next card, on November 21. The "new" stunt is a double main event and Scotty is confident that it will go high with the fans. In the first main event Young Griffo, the training camp gamester, will take on Leo Matlock of San Francisco, while the big event of the show will be furnished by Jimmy Marcelles of San Francisco and Jack O'Brien from the destroyer Williams.

SURE RELIEF FROM FIERY SKIN DISEASES

Will Never Come From Salves, Ointments, or Other Local Treatment. Usually those who continue to suffer from stubborn ailments are those who refuse absolutely to heed the teachings of medical science. New discoveries are being constantly made, and those who fail to take advantage of the wonderful accomplishments of men of science are standing in their own light, and will continue under the handicap of disease.

A million gallons of lotions, ointments, salves or other forms of local treatment will not give any real permanent relief from skin diseases. Get this fact firmly in your mind, and there is hope for you.

If you have ever been afflicted with eczema, tetter, boils, eruptions, or other similar skin irritations you can appreciate the real terrifying discomfort that comes from these disorders. And what you are looking for is not merely temporary, palliative relief that may cause the terrible burning and itching to abate for a while, but real genuine relief that shakes off the shackles of the disease, and restores the skin to its former healthy condition.

But your eczema, tetter, boils, pimples, ache, sealy skin eruptions, and burning fiery irritations that cause so much discomfort by their terrifying itching, come from a tiny disease germ in your blood, which multiplies by the millions. These germs find some weak spot where they can break through the skin and

set up their attack, and if you have ever had any form of these skin disorders, you know what real torture is.

Follow the teachings of science, and you will learn that the skin is fed by the blood, and naturally, then, the condition of your skin will depend upon the condition of your blood. If the blood becomes infested with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are attacked at their source and removed from the blood.

Genuine relief, therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause. Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders, and it can be relied upon to cleanse the blood thoroughly of the germs which cause these complaints. S. S. S. is also a splendid tonic and system-builder, and it builds up and adds new vigor to the whole system.

Go to your drug store and get a bottle of S. S. S. today, and begin the right treatment for skin diseases. Then if you feel that your case requires special medical advice, you can obtain same without cost, by writing to Chief Medical Adviser, 152 Swift Laboratory, Atlanta, Ga.—Advertisement.

NAP-A-TAN Shoes

For General Outside Service

Hunter, Hikers, Boy Scouts, Golfers, Mechanics, Farmers, Shipbuilders, Carmen, Trainmen

and wherever a good, strong, comfortable shoe is necessary or desired. For practical, outside wear—for durability and comfort, you can't beat NAP-A-TAN. Styles in NAP-A-TAN include Men's and Boys' Street Shoes and Men's and Women's Walking Boots and Shoes.

SMALL PLANE USED IN 'HOBO' AIR JOURNEY

First Barnstorming Ship of
the Air Lands at Ingleside
After Trips Through the
Mountains of the Northwest

SAN FRANCISCO, Nov. 12.—Trains with a donkey are supplied by hoboing with an airplane.

The first barnstorming ship of the air to reach this city today at the Walter Varney field in Ingleside. It is a tramp airplane, just arrived from Penitencia, British Columbia, after a ten days' trip in which snows and rains were buffeted.

At the controls when the ship landed was Lieutenant R. D. Clapp, son of the Rev. F. W. Clapp, the chaplain of the "Grizzlies," and with him was Lieutenant Fred D. Hoyt of Los Angeles. They bought a little Curtiss 30 horsepower plane for a pleasure trip through the northwest.

Their craft, flew up canyons, dodged mountain walls, and "wriggled around" the snowy ranges where the altitude was too great for the airplane to soar over.

When a landing field wasn't in sight, they swooped down on the main village street. This they did in Omak, Wash., where some of the inhabitants said they never had seen an airplane before.

The tramp airplane appeared at country fairs and made money there for the aviators.

The rover will leave for the Mexican border tomorrow, where the ship will be stored.

U. C. Regents Deny That Bolshevism Is Rampant In Ranks of Faculty

Considerable satisfaction was expressed by members of the University of California faculty at the emphatic denial given by the regents of the institution at their meeting yesterday to the charge that Bolshevism is rampant in the institution. Resentment among the faculty which was aroused by the charge would, it is said, have taken form in a faculty statement if the regents had taken the stand which they did.

It was further understood at the university today that Professor Leon J. Richardson would continue as head of the extension division since the regents refused to return Dr. Ira W. Howarth to that post. The faculty committee appointed to meet with the regents with regard to the choice of a successor to Dr. Benjamin Ide Wheeler will meet the regents' executive committee tomorrow morning.

WILL BOLSTER DEPARTMENTS

The proposal to strengthen these departments, which have particularly to cope with world problems and which would first be invaded by Bolshevik doctrines was discussed with the greatest interest on the campus today, especially that clause which provided for a grading upward of professional salary rolls before the next college year. The resolutions which the regents adopted were as follows:

In order that the University of California may properly and adequately fulfill the responsibilities imposed upon it by the present world crises, it is of special importance that the following policies be adopted by the regents and carried forward by them:

(1) That through the public service efforts of the University of California, the university should exert powerful leadership in the crystallization of public thought in defense of American institutions and American ideals, and this work should especially be recommended to the attention of the Department of Agriculture and University Extension Division.

URGENT SOUND THINKING

(2) That in all teaching branches of the University, especial and foremost stress be made upon the necessity for clear and sound thinking with reference to the maintenance of American ideals and American institutions of government. For this purpose there should be created a special committee of the faculty by the administrative board to bring this matter to the attention of all departments, and particularly to those departments which can be of greater service, namely, the departments of history, economics, political science, education, agriculture, jurisprudence and philosophy.

(3) That especially the departments of economics and political science should be strengthened by the addition of such men as may be particularly fitted to make effective the University's obligation to the public in the present industrial and economic crises. For the spring and fall of 1920 Professor Dawson has been called to the

SCHWAB STATES HOPE FOR U. S. WITH WORKERS

LOS ANGELES, Nov. 14.—"Normal conditions will be restored in this country sooner than people expect, through the sturdy good sense of the American working man. I am a 'bull' and I believe that never have there been better prospects for the United States than at the present moment."

So declares Charles M. Schwab, steel magnate and world capitalist, who is here today. Schwab, with Mrs. Schwab, whose health is not good at the present time, are vacationing in Pasadena for an indefinite period of time.

Schwab is here to keep them from becoming "Bolsheviks." Nothing is more true, but when professors are overworked and so underpaid that they have to spend the afternoon cutting the lawn or taking care of a baby or a sick wife, you cannot expect the best service from them in the classroom.

The case of Professor Howarth who was ousted, so far as reappointment was concerned, while he was away on war work, occupied the attention of the board. The resolution they adopted states the board to be of the "opinion that no injustice was done Professor Howarth in declining to accept the position of president, since this conclusion was approved by the board on recommendation of President Wheeler, as in all other cases."

Regent Garrett McInerney explained for the board that Professor Howarth was employed for the fiscal year 1916 and special notice was made in the budget then that his appointment was for but one year. The following year he was retained on the same basis. On July 1, 1918, he was given his Sabbatical leave and soon afterward entered war work. When his leave expired President Wheeler advised that he be not retained. It was made clear that no character charge is involved in the dismissal of Professor Howarth, the position of the regents being solely that he had not proved satisfactory as an executive.

Approves Plea for U. C. Investigation

BERKELEY, Nov. 12.—Endorsing the request of Assemblyman Crombie Allen of Pomona, the Berkeley Defense Corps has adopted resolutions calling upon Governor Stephens for a "thorough and searching investigation of the University of California with view of weeding out from the faculty any who may be found to have un-American ideals."

The Defense Corps, of which Victor J. Robertson, attorney, is president, declared in its message to the governor that the paramount need of the university at the present time is the selection of a new president who will "see that no un-American ideas will be allowed within its walls."

Following the adoption of the resolution the corps went on record as endorsing the appointment of Dr. Benjamin Ide Wheeler in preference to any other Californian.

Berkeley Man Assures Co-eds He Will Give Forty Wives Away

Heir to Harem in Southern
Islands Decides He Doesn't
Want to Rule as Sultan

Robert A. McLean, until a week ago sergeant in the marines, has obtained his discharge, he explains, in order that he may properly go about his avowed task of giving his forty wives away.

McLean is the son of Dr. Robert McLean, late professor emeritus of clinical and operative surgery at the University of California Medical school. He returned to Berkeley yesterday, and the first thing he did when surrounded by co-eds was to verify the story that he is heir to forty wives, and to assert that he is going to give them away.

This is how the comic opera story about the "forty lovely creatures" runs.

Six years ago McLean was stationed in the Philippines. He was sent to the southern islands of the group on some official mission. On each of the little islands down there is an independent kingdom, owned and ruled over by a sultan. He is monarch absolute. The religion is Mohammedan.

McLean's mission took him to the island of Liang-Liong, ruled over by the Sultan Abdul Kishia Mid. McLean made a hit with his sultan's majesty and was adopted, with the full ceremony of the tribe. The adoption made McLean the sultan's sole heir, he being the only person ever adopted.

That heirship means that upon the death of the sultan McLean becomes the sultan, owner of the island, the tribes and the harem of forty wives. McLean departed from the island and says he "forgot the incident." Recently he was reminded of it when he received notice that the sultan had died and that he had come into his kingdom.

To quote what McLean told the co-eds:

"I would have paid little attention to the inheritance but for the fact that there are several valuable pearl fisheries connected with his estate, and there is no little wealth there."

"This winter I shall investigate further and I plan to leave for my new kingdom early in the spring."

"Among the other possessions of the sultan which fall to me is his harem of forty wives."

"These wives are not slaves, but were acquired by him in marriage. However, according to custom, they go to the successor of the sultan. I do not remember having seen any of them and have no idea what they look like. The natives of that district are a cross between Japanese and Spaniards, and most of them are of light color."

McLean says there are also a number of slave girls connected with the household of the sultan and these he will set free. The island, he says, is about three miles square and the population is 100.

While here McLean will not only settle up the estate of the father who adopted him, but also that of his real father who died in December.

ROBERT A. McLEAN, who has forty wives to give away.

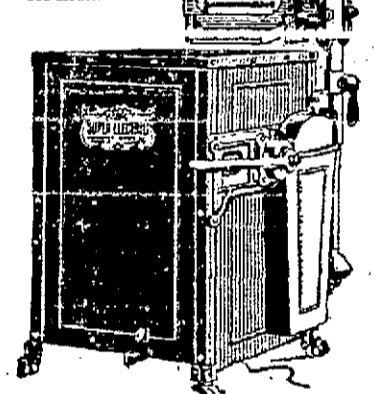

Wolf, in Trap, Pulls Up Post; Shot Later

SAN FRANCISCO, Nov. 12.—A big gray wolf, which jerked up a buried post four feet long and raced away with it and the attached trap, was chased for a mile and a half by O. N. Ford, professional trapper-shooter of Lakeside Links, before it was shot dead. This is the hunting story that Ford brings back from the Lake Merced woods. The wolf is said to be a record-breaker for size. Ford said he set the trap for a wildcat or coyote and the wolf was a surprise.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after-effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels.

Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

RED CROSS CHIEF TO OUTLINE PLANS

Colonel George Filmer, manager of the Pacific division, American Red Cross, with representatives of local social service bodies will address the board of governors of the Alameda county health center at a conference in the blue room of Hotel Oakland tomorrow night. Colonel Filmer will outline the 1920 program of the National Red Cross. Those who will occupy the platform with him will be Miss Elizabeth Skeels, newly appointed secretary of Oakland Associated Charities, who will discuss the relationship between Associated Charities and Public Health; Dr. Herbert Samuel, chairman of the committee on public health, chamber of commerce, who will explain the need for a public health exhibit, and Dr. Robert O. Moody, president of the board of directors, Berkeley dispensary, who will tell how the dispensary expanded into a health center.

VICTORY CERTAIN, SAYS LADY ASTOR

PLYMOUTH, England, Nov. 12.—Viscountess Nancy Astor predicted today that she would exceed her husband's majority of 11,000 by a "cool 3000 votes" when the ballots are cast in the parliamentary election in this district next Saturday. The viscountess is standing for the seat held in the Commons before her husband was elevated to the peerage on the death of his father.

"If all do their duty and keep to their present rate of promises I will romp home winner," declared the viscountess jubilantly.

One woman in the audience interrupted a meeting today to ask the candidate, "Would you like to lose on two pounds (less than \$10) per week?"

"No," replied the viscountess without hesitation, "but would you be doing what I am doing if you had what I have?"

TAFT & PENNOYER COMPANY

National Blouse Week

Now in Full Swing

Blouses for every occasion are here in greater array than ever before. Smocks and middies are included in this great exhibition. For Thursday we desire to lay special stress on Smocks. The styles and ornamentations are absolute innovations.

Smocks are shown in every proper material such as Georgette, Crepe, Crepe de Chine, various Silks, Wool Jersey, Satin and Velvet. The prices range from \$14.50, \$16.75, \$18.75 upward to \$27.50.

Smocks of Cotton Crepe in high colorings and with hand embroidery are also offered in a wide assortment.

The prices range from \$6.75, \$8.75, \$10.50, \$12.50 upward to \$25.00.

—Blouse Section, Second Floor.

Forty-Nine Fifty

Is One of Our Strongest Prices on
Suits Coats Dresses

A really stunning suit, coat or dress can now be obtained at the above very popular price. Visit the section and note the compelling models we have marked at \$49.50. You will be surprised.

—Ready-to-Wear Section, Second Floor.

Broche and Coutil in white or flesh are optional.

Prices \$7.50 to \$30.00 the pair

New GOSSARD Models Also Arrive

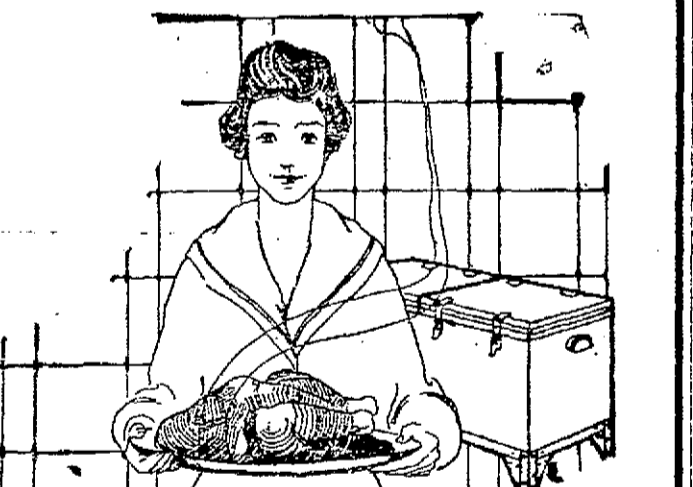

These Gossard models are made expressly to the order of the Taft & Pennoyer Company. They are OUR models. Extra quality broche is used in making.

Prices from \$12.00 to \$30.00 the pair

—Corset Section, Second Floor.

You Can Cook an Entire Meal

in the new DOMESTIC SCIENCE FIRELESS COOKSTOVE. Think of the saving—you actually save 80 per cent of fuel, 75 per cent of time and labor, 35 per cent of food. Food does not shrink or evaporate—it does not burn or overcook. During the demonstration this week, Mrs. Decker is baking, roasting, broiling and freezing, to prove these actual facts.

Demonstration Now in Progress

Be there tomorrow and see Mrs. C. S. Decker freeze ice cream and roast chicken in the same cooker at the same time. The cream will freeze while the chicken roasts with 600 degrees of heat.

Spice cake will also be made. Ice cream and cake will be served free during the afternoon demonstration. Mrs. Decker will lecture and cook from 10 to 12 a. m. and from 2 to 5 p. m. Don't miss it.

Something About the Cookstoves

The DOMESTIC SCIENCE COOK STOVE is the newest and most modern made fireless on the market today. Solid Steel Case, Solid Aluminum Lined, Seamless Wells, Automatic Valves, Vapor Seal-Top, Patent Insulation.

Foods do not burn or overcook. This is a fireless that really cooks all the foods perfectly—the demonstrator proves it.

Special during demonstration—No. 14 size, equipped with one four-quart vessel and set of triple pans, two heat radiators, thermometer, cake and roast racks. \$26.50

Easy Payment Plan—Small payment down, \$1.00 a week

Christmas will soon be here

Brown

Why not a Fireless for Christmas?
